BREATHE BIKE TREK

SEPTEMBER 16, 17 & 18, 2016 | NAPA FAIRGROUNDS - CALISTOGA, CA

THE PROBLEM:

Air Quality

- The Sacramento region consistently ranks among the top 12 areas in the nation with the dirtiest air.
- Vehicles and other mobile sources are a major cause of our ozone problem.
- New studies indicate that ultra fine particles in the air could be making you sick.

Childhood Asthma

- Asthma is the most common serious, chronic childhood disease and is one of the primary reasons for school absences.
- Childhood asthma rates are on the rise.
- Studies show a direct correlation between asthma and air pollution.

Youth & Tobacco

- Young adults between the ages of 15 and 24 have a higher smoking rate than any other age group.
- The tobacco industry is targeting youth.
- More than 1,000 kids start smoking each day because of what they see in movies.

Be a Part of the Solution.

Breathe California of Sacramento-Emigrant Trails is a non-profit, grassroots organization that has been fighting locally for clean air, healthy lungs and a tobacco-free future since 1917.

We have a tradition of innovative programs and seeking original solutions to clean our air and improve lung health, many of which have been duplicated throughout the country and around the world.

Now in its 30th year, the Breathe Bike Trek is our largest fundraiser. We are proud to say that 100% of every dollar raised stays in the local communities we serve, and supports the programs that effectively improve the health of our residents.

Your generous support helps us keep the event expenses to a minimum, allowing more dollars to go back into our community and making our communities healthier places to live and breathe.
